

Michigan Industrial Tools

Position Title: Developer Intern

Department: Information Technology

Direct Supervisor: Information Technology Director

Position Description: If you're interested in computer science theory, algorithms, or databases, you might be a great candidate to join our IT team as a Developer Intern. The Developer Intern will work in a variety of areas such as software customization, database administration, and website development. IT is involved in everything that we do, so the Developer Intern will be exposed to many aspects of our successful and growing business.

The Developer Intern must be proficient in JavaScript and have experience with other programming languages and with web protocols. The ideal candidate has a record of academic achievement and is capable of taking on important projects.

The Developer Intern will be paid an hourly wage that is commensurate with the Intern's skill level. Additionally, upon completion of the summer internship, the Intern will receive the Michigan Industrial Tools Scholarship. The scholarship award of \$4,000 will apply towards the Intern's tuition for the 2016-17 academic year.

Role Responsibilities:

- Assist with the development and maintenance of company websites
- Analyze business problems and propose solutions
- Develop customizations for our warehouse management software and cloud-based ERP system

Education: Currently pursuing a degree in computer science, information systems, or related fields

Experience and Skills:

- Entering junior or senior year
- Must be proficient in JavaScript and have experience with other programming languages such as C++/Objective C, PHP, Ruby, and Python.
- Excellent judgment and leadership
- A penchant for questioning convention and coming up with creative answers
- At least a basic knowledge of hand tools
- Excellent writing and oral communication skills
- Careful attention to process and details

Michigan Industrial Tools is a hand tool company that provides personal attention and exceptional products to customers and end users. Family-owned and operated in Grand Rapids for decades, MIT's featured brand is TEKTON. TEKTON products can be found in retail stores across the country and on e-retailers' sites internationally. We're committed to finding the right person for every position on our team and to maintaining our core values as we grow.
