

# Software Development Career Accelerator

## About Internship on Demand

Internship on Demand is a career-launching platform helping college students find their first professional experience. Virtual career accelerators hosted on our platform build foundational industry and professional skills to open the door to internship and co-op opportunities with sponsor companies.

**Application Deadline:** June 9th

**Program Timeline:** July 12th - August 18th

## Career Accelerator Details

This **5-week, virtual program** is for college students pursuing career paths in software development. These majors include but are not limited to software engineering, computer engineering, or computer science programs. Not in one of these programs? That's totally okay! If you've got the passion and the work ethic to enter the field, this is the right program for you.

- 100% virtual work with flexible hours to meet your schedule.
- **PAID** stipend upon completion of the program
- 5-10 hours per week of training, networking, & project work
- 1-2 hours networking and mentorship per week with industry professionals

**This program is split into TWO UNIQUE MODULES:**

- **Module 1: 3-week Career Readiness** - Everything you need to successfully land an internship. Update your resume to get noticed, build a strong elevator pitch, and connect with Internship on Demand mentors.
- **Module 2: 2-week Industry Sprint** - Speakers & networking with industry members, an industry-inspired project to showcase on your profile, and guided mentorship to apply to employers across your target industry!

## Key benefits for students:

- Cohort-based learning with peers across the US flexibly designed to meet your schedule
- Network with professionals at top organizations for access to future internship & entry-level roles
- Software development/engineering career advice, upskilling, and mentorship
- Collaborate as part of a team to complete project work using industry tools and best practices
- **Earn to learn!** Paid stipend and Certificate of Completion recognizing the skills demonstrated and commitment to the program

## Who Should Apply?

- Anyone interested in working in **SOFTWARE DEVELOPMENT OR ENGINEERING** (best for software engineering, computer engineering, or computer science majors)
