

Summer Undergraduate Research Experience (SURE)

Three Unique Tracks. One Summer Well Spent.

Application Deadline: March 31, 2025

Location: Claremont, CA

2025 Tracks

Individual Research Projects (IRP) *June 16 – July 25*

Work in a research group of a KGI faculty member on a research project in biology, computational biology, engineering (medical devices and bioprocessing), or business / social sciences.

Science and Business of Drug Discovery (SBDD) *June 16 – July 3*

Learn about drug discovery from scientific and business perspectives. Work on a team-based bio-entrepreneurship project focused on analyzing an innovative drug development opportunity, supported by highly interactive classroom sessions.

Bioprocessing Summer Undergraduate Internship Training and Education (BSUITE) *July 7 – July 25*

The BSUITE track offers opportunities for undergraduate research in bioprocessing and bioengineering to obtain valuable experience through team projects in bioprocessing for the production of monoclonal antibodies, enzymes, vaccines, and cell and gene therapy.
